4. 9710033 - Cadence Design / Cooper & Chyan http://www.ftc.gov/os/caselist/c3761.shtm Cadence agreed to settle charges that its acquisition of Cooper & Chyan Technology, Inc. would reduce competition for "routing" software used to automate the design of integrated circuits or microchips. According to the complaint, the merger would reduce Cadence's incentives to permit competing suppliers of routing tools to obtain access to its layout environments resulting in less innovation, higher prices, and reduced services. To ensure that independent software developers of commercial routing tools continue to compete with Cooper & Chyan's technology, the consent order requires Cadence to allow the developers to participate in Cadence's software interface programs.	5 /6 /1997	Information and Technology – Software/Databases
5. 9710049 - Autodesk / Softdesk http://www.ftc.gov/os/caselist/c3756.shtm Consent order settles charges that the acquisition of Sojidesk, Inc. would reduce competition in the development and sale of computer-aided design software engines (CAD) and prohibits Autodesk from reacquiring "IntelliCADD," a CAD engine recently sold by Softdesk to Boomerang Technology, Inc., or any entity that controls the IntelliCadd technology.	3 /28/1997	Information and Technology – Software/Databases

13. 9610055 - Ciba-Geigy Ltd / Sandoz Ltd http://www.ftc.gov/os/caselist/9610055.shtm Final consent order settles antitrust concerns in three markets affected by the proposed acquisition of Sandoz Ltd.: research and development in gene therapy products that are being targeted for life-threatening conditions such as hemophilia and cancer; corn herbicides; and flea control products. In the gene therapy market, the order requires the licensing of certain intellectual properties to Rhone-Poulenc Rorer and other firms to permit continued competition in research, development and commercialization for a broad range future medical treatments. In addition, in one of the largest divestitures ever required under a consent order, Sandoz agreed to divest its U.S. and Canadian corn herbicide business to BASF Aktiengesellschaft within 10 days. The consent order also requires the divestiture of Sandoz's flea control business to Central Garden and Pet Supply of Lafayette, California within 30 days.	12/16/1996	Health Care – Prescription Drugs
14. 9710006 - The Boeing Co http://www.ftc.gov/os/caselist/c3723.shtm Consent order permits the acquisition of Rockwell International Corporation's Aerospace and Defense business subject to a divestiture and other conditions. Currently, there are two teams competing to develop high-altitude endurance unmanned air vehicles for the Department of Defense's Advance Research Projects Agency -- Boeing/Lockheed (developing Tier III Minus, a stealthy, high-altitude endurance unmanned air vehicle) and Rockwell/Teledyne (developing Tier II Plus, a non-stealthy, high-altitude endurance unmanned air vehicle). As a result of the acquisition, Boeing would become a member of both teams and could increase the price of the components it supplies or reduce its investment in technology and quality. The consent order allows Teledyne, if it chooses, to replace Rockwell as its wing supplier without incurring any significant costs or risks to the project. Terms of the consent order require Boeing to deliver the assets necessary to produce the Tier II Plus wings to businesses designated by Teledyne. The order also establishes a "firewall" between Boeing's Tier III Minus business and the Rockwell North American Aircraft Division that provides Tier II Plus wings.	12/6 /1996	Defense – Equipment and Engineering Services
